

Sorting System

Suitable for Prismatic/ Cylindrical/ Pouch Cell

Product Features

- **Customized Design**

Multi-gear design can be realized, and the gears can be customized and developed according to customer needs.

- **Intelligent Detection**

The barcode scanning mechanism can automatically scan the battery tray barcode and single battery QR code. If the barcode scanning fails, an alarm will be immediately issued and a manual process will be prompted.

Parameters

Item	Specification
Equipment power	10kW
Ranking	Can be customized
Applicable power supply	AC 380V 3 ϕ 50Hz
Cell input and output	The tray automatically flows in, when this process step is done, then empty tray automatically flows out
Rankings could be programmable	Based on Voltage, ACIR, DCIR, K value, Capacity, etc.
